

Aymeric Arnoult

Software Engineer

aymericarnoult@gmail.com | +33782978652 | Paris | <https://ayymericarn.github.io>

After 5 years as a professional software developer, I am seeking new opportunities rich of complex problems to solve with the full power of informatics, algorithms and code.

EXPERIENCES

Instructor

October 2025 – December 2025

Hetic, Montreuil

- Delivered a course on front-end web development and an introduction to React.js.

Interactive Developer

September 2021 - August 2024

Bright, Paris

- Worked on seven 3D interactive websites, featuring mini-games and immersive sceneries, built with **WebGL/Three.js/GLSL/Vue.js**, for clients like Lancôme, L'Oréal, Bouygues Construction and Eramet.
- Internal research and developments, on topics like 3D assets optimization, AR, and integrating LLMs in our sales pipeline, featuring technologies like **Python, Node.js, WebAssembly** and 8th wall.
- Handled some server administration tasks on the **CMS, AWS, Docker** and **Serverless** functions.

Full-stack Developer

January 2021 - August 2021

Clint Agency, Montreuil

- Worked on 5 modern stack projects, involving **Nest.js, Prismic, React.js** and **Storybook**, for clients like Opel, Gymlib and Paris La Défense.

Back-end Developer

July 2019 - August 2020

App'ines, Paris

- Developped the WebService and REST API fueling the main products, an application for health practitioners looking for substitutes, and a web platform for health center and their recruitments.
- Created a matching algorithm withing the stack in **Node.js/Typescript, MongoDB**, and **AWS**.

EDUCATION

Sorbonne Université / CNAM / ENS Paris-Saclay

September 2024 – June 2025

Preparation to “Agrégation” (competitive exam to teach Computer Science at undergraduate level)

Efrei/Paris Panthéon-Assas

September 2021 - September 2024

Engineer, Software and Information Systems, Master's degree

Tours University

January 2025

Law and politics

PROJECTS

BasketBall Application playable in augmented Reality (**Java**); Console application for displaying graphics (**Java**)
